REQUEST

for climatological maps for CLINO periods

Period: 1961–1990

- | | |
|---|--------------------------|
| 1. Mean annual air temperature | <input type="checkbox"/> |
| 2. Mean air temperature in January | <input type="checkbox"/> |
| 3. Mean air temperature in April | <input type="checkbox"/> |
| 4. Mean air temperature in July | <input type="checkbox"/> |
| 5. Mean air temperature in October | <input type="checkbox"/> |
| 6. Mean annual number of frost days ($t_{min} < 0^{\circ}C$) | <input type="checkbox"/> |
| 7. Mean annual number of tropical nights ($t_{min} \geq 20^{\circ}C$) | <input type="checkbox"/> |
| 8. Mean annual number of warm days ($t_{max} \geq 25^{\circ}C$) | <input type="checkbox"/> |
| 9. Mean annual precipitation | <input type="checkbox"/> |
| 10. Mean precipitation in vegetation period | <input type="checkbox"/> |
| 11. Mean precipitation in Winter | <input type="checkbox"/> |
| 12. Mean precipitation in Spring | <input type="checkbox"/> |
| 13. Mean precipitation in Summer | <input type="checkbox"/> |
| 14. Mean precipitation in Autumn | <input type="checkbox"/> |
| 15. Mean annual number of days with $R_d \geq 1$ mm | <input type="checkbox"/> |
| 16. Mean annual number of days with snow cover ≥ 1 cm | <input type="checkbox"/> |
| 17. Mean annual relative air humidity | <input type="checkbox"/> |
| 18. Mean annual global solar irradiation 1961-1980 | <input type="checkbox"/> |
| 19. Mean annual sunshine duration | <input type="checkbox"/> |
| 20. Mean annual cloudiness | <input type="checkbox"/> |
| 21. Mean physiological equivalent air temperature in January | <input type="checkbox"/> |
| 22. Mean physiological equivalent air temperature in April | <input type="checkbox"/> |
| 23. Mean physiological equivalent air temperature in July | <input type="checkbox"/> |
| 24. Mean physiological equivalent air temperature in October | <input type="checkbox"/> |

Period: 1971–2000

- | | |
|--|--------------------------|
| 1. Mean annual precipitation | <input type="checkbox"/> |
| 2. Mean annual number of days with thunder and/or lightning
(base for: NN 33/10 i NN87/08) | <input type="checkbox"/> |

Mark the requested maps with **x**.

REQUEST

for climatological maps of extremes

1. Minimum daily temperature for 50 years return period
(base for HRN EN 1991-1-5:2012/NA:2012)
2. Maximum daily temperature for 50 years return period
(base for HRN EN 1991-1-5:2012/NA:2012)
3. Characteristic snow load
(adapted for HRN EN 1991-1-3:2012/NA:2012)

Mark the requested maps with **x**.

Spatial resolution of the maps is 1000 m (except for the mean annual number of days with thunder and/or lightning).

Maps are available in GIS ArcInfo ASCII grid format.

Unit **price** for the:

- climatological map for CLINO period: 200,00 HRK + VAT.
- map of extreme: 4000,00 HRK + VAT

Maps are intended for use

Product will not be distributed to third parties without the further agreement with Meteorological and Hydrological Service of Croatia.

Maps are intellectual property and should be cited as in accompanying documentation.
